8	I am not sure how you can do the second part of that statement and maintain a rural community.	6/29/2018 9:27 PM
9	We need to provide incentives for new industry to develop a stronger economy for the area.	6/27/2018 9:27 AM
10	The county's infrastructure needs attention. Purhaps a segment about that but the statement is good.	6/27/2018 12:26 AM
11	Stronger emphasis on tourism and the arts.	6/25/2018 11:29 AM
12	well maintainingthe rural character of Granville County is not my priority	6/19/2018 7:48 PM
13	Maintain and improving where feasible the environmental quality of the county. Maintain quality of streams and make sure to increase the population,s awareness of roadside trash.	6/19/2018 3:19 PM

14	This is the usual nonsense of wanting "pie in the sky" outcomes. You can't have a rural character and all the growth you are talking about. See the EPA website for a pile of information that our county leaders should be reading about. <a href="https://www.epa.gov/smartgrowth/smart-growth-small-towns-and-rural-communities">https://www.epa.gov/smartgrowth/smart-growth-small-towns-and-rural-communities</a> "Smart growth" is a contradiction in terms. The current STEWART Plan, is filled with these contradictions. All kinds of growth and residential housing and industrial land use and "seamless pattern of growth" and warehouses. But they still say "the goals are to protect the county's rural atmosphere." Irrational	6/19/2018 12:50 PM

16	No I believe it encompasses our future direction.	6/19/2018 10:38 AM
17	Also, providing good modern communication (such as High Speed Internet (which we still don't have in any dependable way).	6/18/2018 6:33 PM
18	It is a very generic statement that seems to list vibrant destinations as the first priority. I have never know Granville county as a vibrant destination but as a resident, I would like to have quality of life through economic and educational improvements that promote the enhancement of the quality of life for all citizens.	6/18/2018 4:37 PM
19	what about the education of our students?	6/18/2018 9:14 AM
20	Support the local farms as well as the town with more farmer markets and agriculture events.	6/15/2018 3:58 PM
21	I believe that the county has grown too much too fast and that there has been very little support for agricultural growth.	6/15/2018 3:58 PM
22	N/A	6/15/2018 3:32 PM
23	The County is in need of sustainable growth and the way to accomplish this is recruiting nice chain restaurants, retail stores and recreation. Granville County is and has continuously spent our money outside of the county for these things. We will still maintain the rural character of the county even with the growth that's desperately needed. This would also increase the county's tax base.	6/15/2018 3:20 PM
24	Agree with the content of the statement but writing errors should be eliminated.	6/14/2018 8:23 PM
25	Vibrant destinations is a weird term.	6/14/2018 6:59 PM
26	Maintain the rural character of the county is of vital importance to maintain the identity of Granville County. If subdivisions are allowed to spread unchecked then Granville County will become another subdivision of Wake County, and out identity as a rural and agricultural county will be lost forever	6/11/2018 8:12 AM
27	Having reviewed the plan options, I would like to see the vision include something about environmental sustainability. Considering the economic growth that many areas experience by using green initiatives, I would think this is a win-win. This area is too beautiful and rare to not ecologically preserve.	6/7/2018 12:07 PM
28	Attract industry for job growth	5/29/2018 10:53 PM
29	Growing healthy and diverse economy	5/29/2018 1:01 PM
30	If this vision statement is to be maintained, writing errors should be removed. As is, the last sentence is an incomplete sentence. Perhaps it should read "Our mission is to maintain Granville County's rural character and sense of community and to enhance the quality of life for all citizens by creating vibrant destinations, supporting a healthy economy, and encouraging sustainable growth."	5/24/2018 11:35 AM
31	Note: Encouraging sustainable growth tends to be in competition with keeping the rural character desired; therefore, extensive thought and planning must go in to backing this statement.	5/23/2018 8:54 AM
32	None	5/22/2018 8:43 PM
33	we need to keep our county LITTER FREE.	5/22/2018 9:13 AM
34	Want to maintain rural character and community while adapting to the changing environment.	5/21/2018 3:15 PM
35	please add at end.....while maintaining farmland, timber and greenways for the future.	5/21/2018 2:58 PM
36	Without sacrificing nature/parks/wooded areas	5/21/2018 1:50 PM
37	I don't want my small town to look/feel like Cary or any of the surrounding areas. I didn't move here for that	5/21/2018 1:13 PM

38	I would like to see downtown areas become "work, live, play" environments. Not sure how to incorporate that into the statement. Perhaps changing "quality of life" as it sounds meh. Work Live Play is more enthusiastic and inviting! My humble opinion :)	5/21/2018 12:47 PM
39	I would recommend moving the sentence "Maintain Granville County's rural character....." at the end and begin the sentence with "While maintaining Granville County's rural character....." I believe by placing it at the front of the vision statement that it is the priority of the second sentence and I believe enhancing the quality of life should be the top priority.	5/20/2018 5:11 PM
40	include something about vibrant town and village centers. we need a balance of urban and rural; commercial and agriculture	5/20/2018 3:56 PM
41	It would be nice to have a few more restaurants in the area, as well as business that cater to families. Examples are bounce houses, putt-putt, etc. Also a place to get a facial and massage would be appreciated by myself!	5/19/2018 12:39 AM
42	Dont want to agree or have anything to do with surveys,developments or items associated with Agenda 21.	5/18/2018 5:43 PM
43	more commercial area in Southern Granville to help with jobs and taxes. Shopping and restaurants would be a big plus.	5/18/2018 12:31 PM
44	How about something on protecting the environment?	5/18/2018 9:49 AM
45	Disagree with rural character. We can maintain natural beauty without being rural. Rural is not a positive term and sounds "anti" progress.	5/18/2018 9:36 AM
46	no	5/18/2018 9:17 AM
47	Focus housing on HUDs mission of form and function versus big houses that are unaffordable on the front and back end, taxing not only our non-renewable resources but trigger housing bubbles and foreclosures. Smaller homes like Sterling Creek.	5/17/2018 5:14 PM
48	"Vibrant", I feel is a word I would not use to describe a destination.	5/17/2018 12:58 PM
49	I have a few concerns, specifically with the first sentence of the statement. The word "maintain" implies that the status-quo is good enough, which it is not. I also believe the term "rural character" needs to be better defined. The term "rural" can bring two very different images to mind. The first, a mix of scenic green fields, preserved for cattle or crop, forested areas of mature trees, and well kept homes, including older farm houses, barns, etc. The second, deforested acres, from logging, trash-lined highways and roads, dilapidated homes and buildings, trailers which are so old and uninhabitable they should be condemned, and yards littered with household trash, furniture, broken down cars, etc. As you read this, please think about what you see most in Granville County and which image Granville County plans to conjure up in the minds of residents, potential residents, and businesses. At this moment, I do not know which image the above statement is hoping to achieve. I am very much in support of actively improving the rural character of our county. There are a number of laws on the books regarding littering, trash in yards, etc, but I suspect the county does not have enough designated resources to enforce these laws. The penalty for breaking these laws, is likely fines, which would help pay for the resources needed. Aside from private property, businesses should also be required to meet higher standards. They should be required to upkeep grassy areas, planted trees and shrubs, and remove all litter on their premises. Buildings and parking lots should be required to be maintained also. Cleanliness in a community, in a county, is critical to quality of life. I very much appreciate the county encouraging sustainable growth and not growing too quickly. I also appreciate the preservation of large tracts of forest and farmlands. In the long run, counties which incorporate communities amongst these large areas of land produce higher property values over time. The county is responsible for supporting the improvement of property values.	5/17/2018 12:36 PM
50	I do NOT like the word "Maintain" at the beginning of the statement. While I want the rural lifestyle, there needs to be better enforcement of trash, abandoned vehicles & buildings ordinances. The area of Hwy 56, especially from the dump to the Franklin County line is horrible! Trash littered roadsides and yards the whole way, older mobile homes and site built homes is disrepair, etc. This needs to be addressed, otherwise it's just a dumpy area.	5/16/2018 6:52 PM
51	Your statement is too broad and actually a disconnect.	5/15/2018 2:12 PM

Q3 The following broad or overarching goals evolved from the public and committee input. Rank the goals based on your priorities (1 being highest priority, 7 being lowest priority). Knowing your priorities will help county staff and the steering committee focus the next phase of the plan on implementing what is most important.

I have contacted the appropriate person in regards to our water issues (both via phone several times and via email) and about a month later, I still have not heard back. 9	Residential growth, it has been shown, results almost always in high service costs and higher taxes. That has been seen in numerous studies. Open land, farm land, etc. allows for low service costs. Planners know this as "Cost of Community Services (COCS) Relative to Taxes Paid" It is well known. I hope all of our county officials are aware of this.	6/19/2018 12:50 PM
10	Work with industry to expand & improve cell phone & internet services outside of Oxford city limits. Even the most populated southern portion of this county is denied services because of poor signals. 20 miles north of RALEIGH --- this is a major growth and industry limiter.	6/18/2018 5:32 PM
11	Enhance county schools to improve the quality of graduates from the K-12 system. Reduce restrictions on industrial and commercial growth. The county debt load should be reduced / eliminated. Improve other county services (police, fire).	6/18/2018 4:37 PM
12	Discourage anymore fast-food or dollar stores (or the equivalent). They are making the town look trashy and poor. What about a Whole Foods or somewhere for healthy eaters to get food from? Food Lion isn't always the freshest and it's ALWAYS the same stuff	6/14/2018 10:40 PM

16	In order for our county to grow fair and equitability, additional services are needed in Southeastern Granville County, specifically BOCC District 6. (Library, schools, parks, EMS, and fire departments) District 6 generates the most property tax revenue of all commissioners districts, yet only three country stores and no services available in the district. Residents are forced to seek those services in neighboring Wake Forest.	5/21/2018 6:15 AM

20	Encourage infrastructure to support housing growth.	5/18/2018 9:36 AM
21	Look at how zoning can step in to encourage home based income that HUD already approves. For example, home day care, group homes or even homes that have handicapped accessible mini-apartments.	5/17/2018 5:14 PM

23	No more section 8 housing	5/15/2018 2:12 PM

## Q6 Is there anything else that you would like the county to address in the Comprehensive Plan or subsequent efforts?

8	Provide cheaper water and sewer rates for everyone	7/2/2018 8:59 AM
9	Develop plans to manage growth with a long term view. Butner was not planned to be a Community and now we suffer from remnants leftover from Camp Butner. Now, since the footprint is set, it is impossible to design a better downtown Butner. If other towns do not manage their growth, where they want it, they will have similar unattractive development.	6/29/2018 9:41 PM

21	"Cost of Community Services (COCS) Relative to Taxes Paid" The absurdities and contradictions in the idea of large scale growth and wanting a "rural atmosphere." It is an absurdity to say "we will get growth whether we want it or not." That is not true. Communities, with good planning, can control growth. We are not talking about "smart growth;" that is a contradiction. Let's see if we can do this right.	6/19/2018 12:50 PM

23	No forced annexation, urgent care & senior services need to be expanded especially in the northern part of the county. This includes ambulance services & additional Sheriff's deputies. Ambulance response time is completely unacceptable & Sheriff's deputies are spread too thin. This is a large county & we're underserved in these areas.	6/18/2018 5:32 PM

24	The county should address their debt burden and develop plans to be debt free within a specific period of time. The interest we pay to service debt would pay for many other programs if we operated on a debt free budget. The county needs to spend less money! EMS, fire, police et cetera at the Wake/Franklin/Granville border is better serviced by the other counties. It would be better for citizens if we had agreements with the surrounding counties to allow them to respond to fire/EMS/police reports rather than relying on Granville county services. A cooperative agreement would be a significant improvement... I care more about the speed of response than I do which county the service came from... maybe they could bill the county when those services are used?	6/18/2018 4:37 PM

34	Please tear down all of the condemned and empty homes/buildings in the town. They're dangerous and the land they're on can and should be used for community centers/parks/events like Live After 5/etc. Also, since Jarod Hughes was found to have done nothing at all wrong, how about giving the town back their bar? 39	Water quality needs to be a high priority, particularly for the southern end of the county. That water system infrastructure is abysmal, and not enough effort is being made to fix issues quickly. We do not want to be a laughing stock due to water quality issues and crumbling schools (i.e. mold, bottled water).	6/7/2018 12:07 PM

43	The cost of water in this county is too high in comparison to surrounding counties. I believe this discourages growth. The explosions at the quarry that shake our house almost once a week are terrifying, especially to our house guests who live in Durham and Wake counties, giving them a negative impression of the area.	5/24/2018 11:35 AM
44	Need one big facility like YMCA or Aycock Ctr. Turn the old golf course into Putt-putt golf. There is nothing family oriented to do in Granville county except parks. We have no movies, no skating, bowling. We shouldn't have to always go to Roxboro, Durham or Henderson.	5/24/2018 10:54 AM

70	Bring business to town that isn't fast food, dollar general, dollar tree, family dollar, car parts or car wash. We lose a ton of tax base by residents shopping in neighboring counties for quality items that are not found in stores with the word "dollar" in them. Ppl do not buy 2-5k sq ft houses to fill them with items from a dollar store. It makes no sense you can't buy a leather belt or a pair of leather shoes in town. We also do not shop exclusively for groceries at Food Lion. Our county is becoming a food desert.	5/18/2018 9:36 AM

72	After review of the land-use scenarios, I would love to see a mix of reinforce towns and green growth. It would be great to see in Granville county, quant destination city areas which are not over populated, as Cary and Wake Forest, but provide unique and updated housing options. I would not be against the county focusing to grow areas surrounding one city (Oxford or Creedmoor, etc) to a larger scale residential/commercial area, while maintaining the county with more green options for land-use and housing. Thank you for making these things a priority in our county.	5/17/2018 12:36 PM
