INTRODUCTION

Granville County government provides many services to its citizens. While a majority of the revenue that pays for these services is through local and state authorized taxes, some services are appropriately funded by user fees wherein the cost of services that benefit a certain person or group of persons are paid for by those persons. The cost of the service should be measurable and an administrative mechanism for charging the beneficiary should be available.

The user fee concept promotes fairness because the revenue supplements the tax dollars that would otherwise be used to pay for the service. For example, if the inspections department was funded by general tax revenue, the general citizenry would be paying for mandatory inspections required of homebuilders and developers. A full-cost recovery user fee supplants this tax revenue and transfers these costs to the beneficiary of the services.

This document presents a consolidated directory of user fees for all county departments.
